- Recurring net profit for FY14 at Rs. 5,722 crores, up 60% over FY13; resulting margin of 36%. This excludes provision of Rs. 2,517 crores and of Rs. 584 crores respectively, both related to generic Protonix litigation in the US.

These results were taken on record by the Board of Directors at a meeting held in Mumbai today.

Dilip Shanghvi, Managing Director of the Company said, "FY14 was a good year for us. Our overall performance reflects the focus on execution of our strategy. We are developing a differentiated and specialty business and continue to evaluate opportunities to enhance our global presence."

India Branded Generics – Chronic Therapy Leadership

Sale of branded prescription formulations in India was Rs. 947 crores, up by 21% from Q4 last year. For the full year FY14, sales were at Rs. 3,692 crores, higher by 25% over same period last year. Normalizing for lower sales in Q1FY13, adjusted growth was at 17% for full year FY14. This growth has been achieved despite the implementation of the new pricing policy and trade channel disruptions.

Sun Pharma is ranked 2nd and holds 5.4% market share in the Rs. 75,000 crore pharmaceutical market as per Mar-2014 AIOCD-AWACS report. It continues to be ranked no. 1 based on share of prescriptions with 7 classes of specialists: psychiatrists, neurologists, cardiologists, ophthalmologists, orthopedicians, nephrologists, and gastroenterologists.

US Formulations: Strong Performance

Sales in the US were US\$ 403 million for Q4 FY14, up by 22%, accounting for 61% of total sales. For the full year, sales were US\$ 1,620 million recording a growth of 43%.

Taro recently posted Q4 FY14 sales of US\$ 187 million, up 13% from the corresponding quarter last year. For the full year, sales were US\$ 759 million, up by 13% over full year last year. Taro's net profit for Q4 was US\$ 90 million, up by 82% over Q4 last year. Net profit for full year FY14 was at US\$ 360 million, up by 35% over the same period last year

International ex-US formulation sales

Formulation sales in international markets outside of US accounted for US\$ 72 million in Q4FY14 were flat YoY (in US\$ terms). Sales for the full year were US\$ 316 million, growing at 13% (in US\$ terms). Excluding ex-US Taro sales, underlying sales growth in US\$ terms for Sun Pharma business in these markets was 9% for the fourth quarter and 16% for the full year FY14.

Active Pharmaceutical Ingredients (API): Strategic strength

The API business has strategic importance for vertical integration on key products. A cumulative of 256 DMF / CEP applications have been made, with 174 approved so far. External sales of API reached Rs. 222 crores in Q4FY14, 31% growth over Q4 last year. For full year FY14, API sales were at Rs. 801 crores, a growth of 6% over the same period last year. The lower growth for FY14 is mainly on account of increased captive consumption.

Research – Investing for future

Consolidated R&D expense for Q4 FY14 was Rs. 308 crores, or 7.6% of sales. For full year FY14, R&D spend was Rs. 1,042 crores at 6.5% of sales.

In the fourth quarter, ANDA for 10 products were filed. After counting these, and adjusting for filings that were dropped, cumulatively ANDAs for 478 products have been filed with the USFDA (as on March 31, 2014). ANDAs for 4 products received approvals in the fourth quarter, taking the total number of approvals to 344 (as on March 31, 2014). ANDAs for 134 products now await USFDA approval, including 7 tentative approvals.

The total number of patent applications submitted now stands at 573 with 346 patents granted so far.

Ranbaxy Acquisition – significant opportunity to increase shareholder value

In April-2014, Sun Pharma proposed the acquisition of Ranbaxy Laboratories Ltd in an all-stock deal valued at an Enterprise Value of about US\$ 4 billion. The swap ratio has been fixed at 0.8:1. This highly complementary combination will lead to significant value creation opportunities and wealth for shareholders, driven by the strong positioning that the merged entity will enjoy in the US, India and Emerging Markets.

On a pro forma basis, the combined entity's revenues are estimated at US\$ 4.2 billion for calendar year 2013 and EBITDA at US\$ 1.2 billion. The merged entity will be able to generate synergy benefits of about US\$ 250 million by the third year post closure of the deal. These would be driven mainly by a combination of revenue, procurement

and supply chain synergies. The deal is subject to customary regulatory approvals and is expected to close by end of 2014.

Guidance for FY15

Consolidated FY15 revenue growth guidance of 13-15%, R&D spending at 6-8% of revenues, 25 ANDA filings targeted in US and capex of Rs. 900 crores. The guidance takes in to account the higher base of FY14 as well the risks associated with increase in competition for some products. Guidance is at constant exchange rate and excludes the impact of the proposed acquisition of Ranbaxy pending the deal closure.
